BHC GROUP

DYNAMICS GP EXPERTS

UNLEASH THE FULL POWER OF DYNAMICS GP WITH BHC GROUP!

WE'VE GOT YOU COVERED

When it comes to Microsoft Dynamics GP, BHC Group stands out as the powerhouse of expertise you need for unparalleled support. With a collective experience of over 100 years in GP resourcing, we are not just consultants; we are your dedicated partners in achieving efficiency and professionalism.

YOUR ALL-IN-ONE SOLUTION

BHC Group is your one-stop solution for Microsoft Dynamics GP. We handle everything from seamless implementation and server migration to customization, integration, and expert training. Our dedicated team ensures ongoing support and maintenance, keeping your system running at its best. Upgrades are made simple, and we stay ahead with third-party solutions for enhanced functionality.

EMPOWER SUCCESS

Why settle when you can excel? At BHC Group, we don't just provide support; we empower you to harness the full potential of Microsoft Dynamics GP. Elevate your operations, streamline your processes, and propel your business towards unparalleled success.

CONSULTANTS

We pride ourselves on offering a comprehensive suite of services for Microsoft Dynamics GP, ensuring that your experience is seamless and optimized for success.

Full-end-to-end Implementations

Picture a Dynamics GP system tailored precisely to your business needs. Our end-to-end implementations guarantee a seamless and personalized setup, reflecting the unique requirements of your operations.

Software Version Upgrades

With our precision software version upgrades, stay ahead in the technological landscape. We ensure your system has the latest features and improvements, keeping you at the forefront of innovation.

System and Security Administration

Trust our experts to handle system and security administration. We create a secure and efficient operational environment for your Dynamics GP, safeguarding your valuable data.

Reporting and Queries

Dive into the power of data with our reporting and query services. Our customized solutions extract meaningful insights, providing the information necessary for informed and strategic decision-making.

Custom Reporting

Tailor reports to your business's unique needs. Our customized reporting solutions provide the most important insights, facilitating precise and data-driven decision-making.

Custom Integrations

Seamlessly integrate Dynamics GP with your existing systems. Our solutions enhance efficiency and workflow, ensuring a cohesive and streamlined business operation.

Post-Implementation Support

Our commitment doesn't end with implementation. We extend ongoing support, providing the assistance needed to ensure your Dynamics GP system thrives in its operational environment.

Payroll Tax Table Updates

Managing payroll intricacies becomes effortless with us. We seamlessly update tax tables, ensuring accurate and compliant payroll processing for your peace of mind.

System Training

Empower your team with confidence through our comprehensive training. We ensure your users are proficient, enhancing overall system usability.

Server Migration

Our expert migration services make transitioning servers effortless. We ensure a smooth and efficient transfer of data and operations, minimizing downtime.

Software Support

Experience unmatched support with us. We address concerns promptly and effectively, ensuring your Dynamics GP system runs smoothly minimizing disruptions to your operations.

Deployment of many ISV products

Explore enhanced functionality seamlessly with the deployment of various Independent Software Vendor (ISV) products. Tailored to meet your specific business requirements, these solutions amplify the capabilities of your Dynamics GP system.
